

# IS YOUR BUILDING PREPARED FOR A HURRICANE?

BE READY FOR AN ACTIVE HURRICANE SEASON WITH OUR 24-HOUR CHECKLIST

With the growing severity of weather events, it's important to ensure that your building is prepared in what to do should a hurricane make landfall here in the Hawaiian Islands this hurricane season. Be sure that you and your staff are cross-trained on the established disaster plan, critical building systems, and disaster event checklist specific to your building. The checklist below is a great blueprint to get you started on your own checklist to keep you and your staff organized and in control in the event of a hurricane.

## 24 HOURS BEFORE LANDFALL

- Advise building occupants of the following:
  - Any building closures
  - To move any items adjacent to windows away from windows and to remove all lanai furniture and fixtures
  - To unplug any sensitive electronics
  - To move their car from the ground floor (if applicable)
- Test any building security measures you intend to use during the hurricane
- Double check that any roof-mounted mechanical systems are secured
- Remove and secure any pool furniture or any other items that are not permanently secured outside
- Back up any data offsite
- Ensure storm and roof drains are clear of any debris
- Test backup communication systems
- Place sandbags to prevent flooding in the building

## 4 HOURS BEFORE LANDFALL

- De-energize any non-critical electrical building systems
- Turn off water supply
- Send non-essential staff home
- Secure the building
- Monitor news for updates
- Get indoors and stay indoors

## AFTER THE ALL-CLEAR

- Inspect critical building systems to ensure they are operational & turn on any of the following you have turned off:
  - Power
  - Water
  - Entrance Systems
  - Fire Alarms
  - Elevators
  - Mechanical Systems
- Inspect the building envelope for any signs of physical damage and document
- Board up any broken windows
- Mitigate any water damage sustained to prevent mold growth

**24/7 EMERGENCY RESPONSE (808) 694-3552**

Premier Restoration Hawai'i is a full-service mitigation and restoration company with a broad scope of services dedicated to providing a one-stop solution to damage done by water, fire, mold and environmental hazards like lead and asbestos. Serving both commercial and residential properties, Premier Restoration Hawai'i is locally owned and operated with 160 employees on Oahu, Maui, Hawai'i Island and Kauai. Our IICRC-certified technicians are the best in the business when it comes to high quality and comprehensive disaster response, restoration and mitigation at any level.

With over 20 years in service and a continual investment in state-of-the-art equipment, we have the experience and resources to respond to any disaster no matter the scope of work. Our friendly staff understands the frustrations of any property disaster and support our customers every step of the way through to job completion. As a BBB-accredited business with ongoing, company-wide training, our organization is committed to the highest standard of customer service.

### EMERGENCY RESPONSE

When disaster strikes, every second counts. Premier Restoration Hawai'i provides 24/7 emergency services for immediate, on-site response on Oahu, Maui, Hawai'i Island and Kauai.

### WATER DAMAGE MITIGATION & STRUCTURAL DRYING

Using industry-leading water extraction and drying equipment, our team of IICRC-Certified water damage restoration technicians can handle commercial or residential water loss situations of any size, ensuring all affected areas are completely free of moisture.

### MOLD REMOVAL & REMEDIATION

Our team of IICRC-Certified mold remediation technicians provide comprehensive removal of all microbial hazards backed by professional third-party verification of the scope of the work completed.

### FIRE & SMOKE DAMAGE

Clean-up, debris removal, structural drying, deodorizing and emergency board-up services: we have the experience and equipment to provide full-service emergency fire and smoke damage solutions quickly and efficiently.

### ABATEMENT (ASBESTOS & LEAD)

Premier Restoration Hawai'i holds a C-19 license for abatement of asbestos, lead and other hazardous materials. Our team of licensed technicians are able to quickly identify potential environmental hazards in conjunction with other ongoing projects.

### RECONSTRUCTION

Our team of professional contractors provide comprehensive structural repairs to impacted walls, floors, ceilings, structural elements and woodwork. Our reconstruction team is equipped to return your home or facility to pre-loss condition.

### CONTENTS MANAGEMENT

We offer complete pack-out and pack-in services, inventory management and secure storage facilities for affected contents during structural repairs and mitigation. Premier also provides an in-house contents cleaning facility for exhaustive restoration of contents and documents affected by water, smoke or sewage.

### ODOR CONTROL

We forensically identify and quickly remove noxious odors such as smoke, urine, mold and decay in an indoor environment by changing the odor molecule as opposed to simply using a masking agent.

### STORM & WIND DAMAGE

Premier Restoration Hawai'i is the storm restoration company of choice for homeowners and businesses throughout the islands. Whether you have wind damage or standing water from an unexpected flood, we have the experience and expertise you can trust to repair your facility or home—on-budget and on-schedule.

### COVID-19 CLEANING & DISINFECTING

Our commercial deep cleaning and decontamination services provide hospital-grade sanitation for Hawai'i businesses and commercial buildings. For preventative deep cleaning services or emergency response due to a positive Coronavirus exposure, our experienced team is here for you.
